

AgriSafe Virtual Think Tank

Defining the Rural Health Care Professional Role in the Prevention of Opioid Misuse

August 17, 2018
12:00 CST

Join AgriSafe during this virtual town hall to help formulate best practices for rural health care providers in response to the opioid epidemic. Emphasis will be placed on caring for the agricultural producer. Various health care professionals, mental health leaders, and other stakeholders will join this session to share their perspectives on how best to equip health care providers.

The opioid epidemic affects everyone, and the response must be collaborative. **AgriSafe needs your help identifying where to begin.**
